

Aditya Kumar

UI Engineer - Frontend Developer

Mumbai | kumaranuj801503@gmail.com | +91 7320039649 | Portfolio | LinkedIn | GitHub

Frontend Developer with hands-on experience building responsive, full-stack web applications using React.js, Node.js, and MongoDB. Skilled in REST API integration, JWT authentication, and Agile development, with a focus on writing clean, scalable UI code and shipping features end-to-end.

Professional Experience

INNstight - Mumbai, India

March 2025 – Present

UI Engineer

- Developed and maintained 4+ responsive web applications using HTML5, CSS3, React.js, and TailwindCSS, ensuring consistent performance across devices and browsers.
- Integrated 10+ REST API endpoints in close collaboration with backend teams, enabling reliable data flow between frontend and server.
- Followed Agile methodologies across two-week sprint cycles – including planning, daily stand-ups, and retrospectives – to keep development on track.
- Owned deployment and production server updates using FileZilla, delivering low-risk releases with zero unplanned downtime.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Redux Toolkit

Backend: Node.js, Express.js

Database: SQL, MongoDB

Frameworks: TailwindCSS, Bootstrap, Material-UI

Tools: VS Code, GitHub, Postman

Projects

SwiftShop

[Link](#)

- Built SwiftShop, a full-stack e-commerce platform using the MERN stack, with an admin panel for managing products, orders, and users.
- Structured the admin panel to streamline product management, order tracking, and store administration across 3 core modules.
- Implemented secure JWT-based authentication across 3 flows (signup, login, logout), protecting all admin-only routes.
- Delivered 5+ core commerce features – including product CRUD, order tracking, and role-based access control – supporting the full admin workflow end-to-end.
- Tools Used: React.js, Vite, TailwindCSS, Node.js, Express.js, MongoDB, JWT

Personal Portfolio

[Link](#)

- Built a professional portfolio to showcase skills, 3 projects, and contact details.
- Configured 4+ dynamic project sections with detailed descriptions, live previews, and GitHub repository links to improve discoverability for recruiters.
- Tools Used: React.js, Vite, TailwindCSS

SpicyBites

[Link](#)

- Built a mobile-friendly food-ordering web app to simplify the online food delivery experience for users.
- Created a modern, intuitive interface enabling a 3-step browse-to-checkout flow for customers.
- Tools Used: React.js, Vite, TailwindCSS

Education

Aryabhatta Knowledge University, Patna

June 2020 – July 2023

- Course: Bachelor of Computer Applications (BCA)
